Aqua Detox Foot Spa

The Aqua Detox Foot Spa clears toxic build up on a cellular level. The water is charged with millions of ions that enter the body through the feet. These ions allow the body to purge tissue acid waste and release it through the thousands of pores on the soles of the feet. Watch the water change color as the toxins are released from the body! Cleansing with the Ion Detox Foot Spa can:

- Reduce premature aging
- Boost energy
- Improve skin issues
- Decrease allergies
- Balance the body's pH level
- Support immunity

Aroma Touch Therapy

Using simple, methodical hand movements to apply specific Certified Pure Therapeutic Grade® dōTERRA® essential oils to the back and feet, this service produces a profound, whole-body wellness experience designed to detoxify and restore the body's balance. AromaTouch addresses four systemic constants that may limit one's health: stress management, immune support, inflammatory response, and autonomic imbalance. Perfect for anyone who wants an overall sense of wellbeing and relaxation.

*All In Touch Rewards sessions, including the promotional reward session, must be completed within six months of the first massage. Previous massage appointments cannot be counted toward the five In Touch Rewards sessions.
